

# Chely Wright, Picket Fences

Chely Wright

Little boys and little girls dream of big, big things.  
They're taught at a tender age just what life should bring.  
Get a job, say I do and settle yourself down.  
But what about those of us whose lives are still spinnin' around.

Tell me what's so great about picket fences.  
Paintin' them's such a mess.  
And a big back yard where kids can play.  
I'd probably never get a moment's rest.  
And settin' the table for five at five.  
Only means more dishes to load.  
What's so great about picket fences.  
I guess I'll never know.

Here I am in my prime, at least they tell me so.  
And if I go to sleep at night I always go alone.  
I guess that I could have it all and someone by my side.  
But I can't take the give and take the price is just too high.

Tell me what's so great about picket fences.  
Paintin' them's such a mess.  
And a big back yard where kids can play.  
I'd probably never get a moment's rest.  
And settin' the table for five at five.  
Only means more dishes to load.  
What's so great about picket fences.  
I guess I'll never know.  
Tell me what's so great about picket fences.  
I guess I'll never know.
