

# Chemia, Generation Zero

I think I lost my faith  
That's ok - they said to me  
You don't leave this voice inside your head  
Focus on your game  
?

Don't care what's the point  
That's real, that's the word  
And nothing for me again  
And nothing for me to the end

I think I lost my empathy  
I think I lost my anger  
That's real, that's the word  
And nothing for me again  
And nothing for me to the end

I think I lost my empathy  
I think I lost my anger  
Everything no authority

(poprawcie, please)
