

# Chemical Garage, I feel like.

ref: I feel like.

So stupid.

I haven't seen what you did.

Now it will never happend.

1. Every day I walk around

I don't wanna let you down

I don't wanna let you down

Just becaouse I feel the same

I am not the one to blame

My mind on the ground

Couse the words are not found

Couse to write this song I did everything wrong

So I don't know what to do

And I really have no clue

How to make things OK

Couse I fucked up every day

ref: I feel like.

So stupid.

I haven't seen what you did.

Now it will never happend.

Sometimes. I feel like dirt

Just because my feelings hurt

Because I let You go

You don't want to hear me so I act like someone else

I could be for you the first

You don't wanna hear me say

Couse I fucked up every day

So I don't know what to do

And I really have no clue

How to make things OK

Couse fucked up every day

ref: I feel like.

So stupid.

I haven't seen what you did.

Now it will never happend.

This song today was born

You will be with me no more

I will take some free time just

To be stupid, as I was

ref: I feel like.

So stupid.

I haven't seen what you did.

Now it will never happend.
