

Chemical Garage, Never going right

1. If tomorrow is today, i think about yesterday.
If you love me, thats your problem. I will never go that way.
Never going right.
All fought you will fight.
Never doing, what you wanted, never missin you.
Every day is like vacation, fuck what you will do.
Ref. Never going, never going, never going,
never going, right
Never going, never going,
never going, right.

2. I dont care in any words that you yelled to me.
I just want to be alone, and most of all, want to be free.
I dont want you here with me.
So I doubt that that you will see.
Now Im leaving, going my way, You just begged me. Please dont say.
And its time to loose the tail, so now its time to go.

3. Say just what you want.
Look where you want to.
I will go to my front
And dont care what will loose.
