

# Chemical Garage, Song

1. I never look for another day.  
I never saw a need of pray  
I never fought, that colors are.  
I never saw a rising star.  
I doubt that You are here.  
I never believed that You are real.  
I saw an Angel just like me.  
He opened my eyes and now I see.  
Ref. Now I know, forever is for real.  
Now I know, I see it clear.

2. My life is precious, I never knew,  
You think about me and I love You.  
Next to me You always stand  
I am Your child and You're my friend.  
For all the harm I did to You  
For all those things that You've been through  
I know it's for me, things You've done.  
Every day I see the sun.
