

# Cher, Git Down

It hurts inside to know all the times  
We have ever had cried  
To keep away the reasoning of why we lied  
It only lead me down a lonely road  
And strange of fates as a world to  
A new and different time or place  
To live away the time of day so we can race  
Exactly what we choose not to believe

Chorus:

Happy was the day we met  
Never could I ever for you  
I know too well not to stay

We paid our price turn our head  
Close our eyes and sacrifice  
Excuses of love

That once was warm has turn to ice  
But only leave me cold and so alone  
Now memories of years and fun  
Can only turn my eyes to see  
All the good that's been undone  
But I believe we're lucky just to learn  
From what we were

Chorus

Memories of years and fun  
Can only turn my eyes to see  
All the good that's been undone  
But I believe we're lucky just to learn  
From what we were

Chorus x 5 (fade)
