

# Cher, Just What I've Been Lookin' For

[Chorus:]

You're just what I've been looking for  
Something I never thought I'd find  
And everything I ever dream of  
Is getting closer all the time  
Ah I believe you want me too  
And love is in your eyes  
You're just what I've been looking for  
Just what I had in mind

Once around the wheel of love  
I guess everybody's tried  
And you never quit get over it  
When you've been taken for a ride  
Well forget all that  
That's another place and another time  
That world began to fade away  
When you walked into my life

[Chorus]

You're just what I've been looking for  
Just what I had in mind
