

Cher, Love And Understanding

Here here in this world
Where do we go, where can we turn
When we need some love
It seems that love just can't be found
Where where do we stand
When love's supply don't meet love's demand
We got enough stars
To light the sky at night
Enough sun to make the whole world bright
We got more than enough
But there's one thing there's just not enough of

[Chorus:]
Not enough love and understanding
We could use some love
To ease these troubled times
Not enough love and understanding
Why oh why-y-y

Spend all of our time
Building buildings up to the sky
Reaching everywhere but where we need to reach the most
Hearts never can wim
O-oh, in this race, this race that we're in
We got enough cars
To drive around the world
Enough planes to take us anywhere
We got more than enough
But there's one thing there's just not enough of

[Chorus]
We need some understanding
We need a little more love
Some love and understanding
Enough stars to light the sky at night
Enough sun to make the whole world bright
Enough hearts to find some love inside
We got more than enough
But there's one thing there's just not enough of

[Chorus]
We got to find
Love and understanding
We could find some love
To ease these troubled times
Not enough love and understanding
Why, oh why, why, why, why
Not enough love and understanding
We could use some love to ease these troubled times
Not enough love and understanding
Oh why, why, why, why, why
Not enough
