

# Cher, Love & Understanding

Love & Understanding

Here, here in this world  
Where do we go, where do we turn  
When we need some love it seems that love  
Just can't be found  
Where, where do we stand  
When love's supply don't meet love's demand

We got enough stars to light the sky at night  
Enough sun to make the whole world bright  
We got more than enough, but there's one thing  
There's just not enough of

Chorus:

Not enough love and understanding  
We could use some love  
To ease these troubled times  
Not enough love and understanding  
Why? Oh why?

Spend all of our time building buildings up to the sky  
Reaching everywhere but where we need to reach the most  
Hearts never can win, oh in this race  
This race that we're in

We've got enough cars to drive around the world  
Enough planes to take us anywhere  
We got more than enough, but there's one thing  
There's just not enough of

(chorus)(repeat)

We need some understanding  
We need a little more love  
Some love and understanding

Enough stars to light the sky at night  
Enough sun to make the whole world bright  
Enough hearts to find some love inside  
We've got more than enough (but there's one thing)  
There's just not enough of

(chorus)

We've got to find love  
Got to find some love  
To ease these troubled times  
Not enough love and understanding  
Why? Why? Why? Why? Why? Why?

Tell me why, tell me why  
Love and understanding  
Oh why? Not enough love  
Why? Why? Why?

(Not enough love and understanding)  
(We could use some love)  
(To ease these troubled times)  
(Not enough love and understanding)  
(Why? Oh why?)  
(Not enough)
