

Cher, Skin Deep

You came on to me a house of fire
One look was all it took for my desire
I'm still burning, it's the middle of the night
I need something that can
Make me feel alright as I go

[Chorus:]
Skin deep, to the bone
Every time I see your face
I go skin deep, to the bone
Telling me that I'm in trouble

S.O.S, I'm in distress tonight

Knock knock in the dark, what will I find?
Your eyes-hypnotize, but can they read my mind?
Watch your step now
We're gettin' closer to the edge, this is dangerous
And all the lights are flashing red as I go

[Chorus]
[repeat]

Too far gone, I can't hold on
Tonight, not tonight

I'm still burning, it's the middle of the night
I need someone that can
Make me feel alright as I go

[Chorus]
[repeat]

Skin deep, to the bone
Every time I hear your voice
I go Skin deep, to the bone
Telling me that I'm in trouble
