

Cher, Touch And Go

I know we can make it baby
If only we try
Lets hang on to love
And don't let it die
Even though

[Chorus:]
It's been touch and go
On and on we get strong
But then we didn't know
That we'd hope we could cope
With all the ups and downs
So please stay around
I need you so

I'd give you a bed of roses
Right here in my arms
But you got to take the sweet with the thorns
And I know

[Chorus]
