

Cherry Monroe, Painkillers

Suddenly, i'm alone again
Suddenly, i have to pretend
That we're in love soaring high above the atmosphere
But i cant see clear, but i cant see clear

I need painkillers just to be, just to be with you
I take painkillers just to be, just to be with you
Lets lie beneath the stars and cry
When i get down i get high

But suddenly, i'm yours again
Suddenly, i have a friend
But suddenly, i cant get no satisfaction
All from a chemical attraction, all from a chemical attraction

I need painkillers, just to be, just to be with you
I take painkillers just to be, just to be with you
Lets lie beneath the stars and cry
When i get down i get high
I get high
I get high
I get high

I need painkillers just to be with you
I take painkillers just to be
Lets lie beneath the stars and lets lie beneath the stars and lets lie beneath the stars and lets lie
Beneath the stars and lets lie beneath the stars and cry
When i get down i get high
