Fallin' Never Felt So Good

There's a photo in my baby book

Of the first step that I ever took

I ended up on my butt with a puzzled look

Ever since I've been kinda confused

When life tripped me up I was easily bruised

But time has a way of healing wounds

Now I'm a guy who does what he feels

But I never seem to spot that banana peel

With eyes shut tight and nerves of steel

I'm takin' the plunge baby head over heels

Fallin' never felt so good

It don't scare me like I thought it would

Coming down, droppin' fast

I got a feelin' that it's gonna last

Here I come baby ooh, ooh, ooh

Fallin' in love with you

Who can say what may lie in store

Smooth sailin' on a sea of love or

Runnin' aground on a rocky shore

Now that I've found you I'm not lettin' go

'Cause I've been searchin' high and low

Only one thing that I know

The higher you take me the deeper I go

Fallin' never felt so good

It don't scare me like I thought it would

Coming down, droppin' fast

I got a feelin' that it's gonna last

Here I come baby ooh, ooh, ooh

Fallin' in love with you
