It's Not Over If I'm Not Over You

You can tell everyone love is over and done

You can pack all your things and go

You can lie to yourself and say theres nothing else

But theres something I think you should know

(And) Its never really over even though you say were through

You may be over me but cant you see

Its not over if Im not over you

Theres not much I can do if its over for you

Ill just wish you the best when you leave

But youve played such a part in my life and in my heart

Youll always be a part of me

(And) Its never really over even though you say were through

You may be over me but cant you see

Its not over if Im not over you

You may be over me but cant you see

Its not over if Im not over you
