Wherever You Are

Once in a lifetime love comes along
I know it's you that I'm waitin' on
The less we promise of our first kiss
Keeps me hangin' on through times like this
So wherever you are I'm thinkin' of you
Wonder if you're thinkin' of me too
'Cause only so long time can keep us apart
So until we meet, keep me in your heart
Keep wishing upon that same old star
And know that I love you, wherever you are

Can't say I know what you look like
You're in my heart and you're on my mind
I feel your love deep down in my soul
When I finally find you, girl I'll know

So wherever you are I'm thinkin' of you
Wonder if you're thinkin' of me too
'Cause only so long time can keep us apart
So until we meet, keep me in your heart
Keep wishing upon that same old star
And know that I love you, wherever you are

So until we meet, keep me in your heart
Keep wishing upon that same old star
And know that I love you, wherever you are
Girl I love, I love you, wherever you are
