

# Chester French, Neal

Everybody knows this song  
But why did it take so long yeah  
Now your children they are grown  
Wearing make up and alone  
Workings tired out your eyes  
Yea drinking milk shakes eating fries  
Grease your hair down  
Polish up your shoes  
Get up girlfriend take her to the zoo  
Check your balance pay checks coming through  
Something's going wrong my friend it's you  
Days are turning into years  
What a wonderful career  
Now your children they are grown  
And your wife is all alone  
It's time to find out where you're at  
We don't want no heart attack  
Grease your hair down  
Polish up your shoes  
Get up girlfriend take her to the zoo  
Check your balance pay checks coming through  
Something's going wrong my friend it's you  
X2
