Miscellaneous

make my life a littlr bit brighter

Make my life a little bit brighter

Chester

When I met you on the street
on my own two feet I couldn't believe it
and now I've found you ooh I'll keep you
and I'll be with you when I want to
and I want to cause you

Make my life a little bit brighter
you ooh make my life a little bit brighter

All my lonely foreign feelings
have gone and left me since you met me
and it sure looks bright in the morning
I awake with you
all those moments all those moments honey
with you

Make my life a little bit brighter
you ooh make my life a little bit brighter

Words keep falling from my head
Sayin how I how I love you

When I met you on the street
off my own two feet two feet
I couldn't believe it believe me honey cause you

Make my life a little bit brighter
You ooh make my life a little bit brighter
Repeat to end.
