

Chevelle, Tug O War

Feed the cut and get in line
To live and burn is tug-o-war
Raped
Go back and forth until it's learned
To suffer now or nothing's gained
Then wake within a freezing sweat
Push and pull, collecting doubt
Starting seeds

[Chorus]

Lost inspiration, panic on the rise
A severed attempt ignored
The reason never outweighs the truth
So backing up and lean against
The liars club cometh shame
Wasting farther collecting doubt
Starting seeds

[bridge]

So hand it off, don't care enough
Cause ignorance, is in blissful reach
Lost inspiration, panic on the rise
A severed attempt ignored
Lost inspiration, never played the game
A severed attempt ignored
Feed, the last head trip
