

# Chiasm, Embryonic

What is the pain  
You'll never feel?  
What is the life  
I'll never heal?  
I took that from you  
Sacrifice  
To know what grows inside

Destroyed by me  
Incubated  
The life that's born to die

What is the pain  
You'll never feel?  
What is the life  
I'll never heal?  
I took that from you  
Sacrifice  
To know what grows inside  
The life that's born to die

I took that from you  
The life that's born to die  
Incubated  
Sacrifice

(I can feel it moving inside  
The life is washed away  
Sterile and incubated  
In death the life will pay)  
I took that from you  
I took that from you  
I will create you  
I will create you  
The life that's born to die
