

Chiasm, Enemy

You are your own enemy

I can see it in your eyes
The way you hold the pain inside your mind
Now I can see it in your eyes
The way you hold the pain inside your mind
Now I see

Creative evolution
Genetic revolution

You are your own enemy

Close your eyes and take me in
The way you know is soon to change
Alive inside the species grows
The silent fate will dominate
You are your own enemy

Creative evolution
I can see it in your eyes
The way you hold the pain inside your mind
The hate you hold inside controls your mind
I see
You are your own enemy
Genetic revolution

The species grows inside your mind
Controls the pain inside

You are your own enemy

Close your eyes and take me in
The way you know is soon to change
Alive inside the species grows
The silent fate will dominate
You are your own enemy

Creative evolution
I can see it in your eyes
The way you hold the pain inside your mind
I see
The hate inside, it points towards me
You are your own enemy
