

Chiasm, Prefrontal

Eispickel in dein Hirn
Steck ihn rein
Ich kann hoeren wie es reit
Fleisch reit so schnell
Mach dein Leben eine suee glueckliche Stille
Oeffne deine Augen und du wirst sehen
Es wird bald vorbei sein
Wirst nichts fuehlen
Weil hier drin keine Schmerzrezeptoren sind

Icepick in your brain
Stick it in
I can hear it ripping
Flesh tears so quick
Make your life a sweet happy silence
Open up your eyes and you'll see
Soon it will be over
Won't feel a thing
'Cause inside there's no pain receptors

You can't make me change my mind
You can't make me heal
You can't make me happy
I want to feel what's real

They tell me to erase
These feelings I embrace

They hide inside my mind
I hear them speak inside of me
You can't make me change my mind
