

Chic, I'll Be There (feat. Nile Rodgers)

Night begin for me
When a single DJ tried the needle on my bottle
(Everybody dance)
I look at the scene, people love to dance
For living proof of our revival.
Every night was a blast,
We were flying fast, flying free
We were driven
No, I don't want to live in the past,
But this night's a place to visit
And if you come along, I'll be there
And if you come along, I'll be there
And if you come along, I'll be there
And if you come along, I'll be there
If you come along...

Equal days and nights all around the world
There was an explosion,
(The clock keeps turning)
I was more alive,
(It's getting late)
If you work your music, let it assemble our devotion

Smash after smash after smash
I appreciate all the gifts I was given
Now I don't wanna live in the past
But this night's a place to visit
And if you come along, I'll be there
And if you come along, I'll be there
And if you come along, I'll be there
And if you come along, I'll be there
If you come along...

And if you come along, I'll be there
If you come along, I'll be there
And if you come along, I'll be there
No place like home, I'll be there
So if you come along...
I'll be there
I'll be there
I'll be there
