

Chicago, Closer To You

Have you seen the ladies passing by?
They don't seem to notice
That I'm lonesome and I cry

But soon they'll listen
I can tell you, tell you why
I'm gonna make this record
Gonna go sky high

I just wanna be closer to you
I just wanna see if you can be moved, baby
I don't wanna be a fool for you, no

I'm goin' to the city
All the hustlers in the street
And can't you imagine
Just where my head might be

Bright lights are shinning
I can see in front of me at night
Clockwork deception
Won't save us, set us free

I just wanna be closer to you, baby
Oh, I don't wanna be a fool for you, whoa
I just wanna see if you can be moved

I just wanna be closer to you
I'm not supposed to be alone
You know I'm not supposed to be alone
Oh no, oh no

We're coming to this country
Gonna play for all our friends
Yeah, we got positive action
Got energy to last

So go down 'cause we're cookin'
Let the rhythm get you high
And bring all the ladies
Tell them why, why, why

I just wanna be closer to you, baby
Oh, I don't wanna be a fool for you, whoa
I just wanna see if you can be moved

Closer to you
