

Chicago, Let's Take A Lifetime

Say no more
If you want to kiss goodnight
That's all right by me

Close your door
Make sure the latch is tight
Fall gently to sleep

We don't have to rush ahead
Putting questions in your head
And an ache in your heart

Let's take a lifetime
All that we desire
Build it day by day into forever

Let's take a lifetime
All that you require
Here and now and ever

In these times
Love is not some harmless game
It's played strictly for keeps

No, it's no crime
Wanting me to feel the same
With the water so deep

Come tomorrow once again
We'll be together until then
We have dreaming to do

Let's take a lifetime
All that we desire
Build it day by day into forever

Let's take a lifetime
(Let's take a lifetime)
All that you require
(All that you require)

Let's not hurry through the night
When our love could last a lifetime

Let's take a lifetime
All that we desire
Build it day by day into forever

Let's take a lifetime
All that you require

Let's not hurry through the night
When our love could last a lifetime
