

# Chicago, Somebody, Somewhere

The sun is coming up  
But I don't see the light  
I keep goin' on and on  
Thinking bout' where we went wrong  
I always heard that love  
Could stand the test of time  
But somethin' that we had is gone  
Maybe we just stayed too long  
I wish that I could lie  
And tell myself it's alright  
It was nothing at all

CHORUS

Somebody, somewhere  
Is falling in love tonight  
Is nothing at all  
Somebody, somewhere  
Is saying there last goodbyes  
I gotta know  
Is it the same when it comes  
And when love goes  
Where do I go from here  
Don't know where to turn  
Will you find another face  
Or disappear in yesterday  
Should I hold on  
Should I let all the memories go  
Was it nothing at all  
She comes and goes  
CHORUS
