

# Chicago, The Road

(T. Kath)

If you'd like to get together  
Then come right over to me  
Ooh, We can do anything  
That you like to do  
If you'd like to give your love  
Then please just feel free  
Because I may be gone tomorrow  
And not even know your name  
Now please don't misunderstand my loneliness  
Let's never ever talk of time  
Cause friends may fade away  
And our hopes will say goodnight  
And our friendship would be lost  
It would be such a waste of time  
So let's just  
Let's have a good thing girl  
And let's not worry  
Let's do everything we want  
And let's not cry  
When it's over  
When I leave  
Our thing won't die  
If you really understand  
Then come right over to me  
We can play together for a while  
And still be free
