

# Chicago, Why Can't We

[Bill sings:]

Where did you go?  
What happened to the life we had?  
It took an unexpected turn  
And even though we tried so hard  
We only got so far  
Oh, what did we learn?

[Shelly sings:]

Another day  
Another night without you here  
And nothing ever seems to change  
And I know I can't escape  
Because I always see your face  
Every time I close my eyes

[Chorus:]

[Bill and Shelly sing:]

If the sun can rise above us  
Every single morning  
If the moon can turn the tide  
Of every sea  
People falling in and out of love  
Without a warning  
They get a second chance  
Then Why Can't We?

[Bill, Shelly:]

If there's a way  
To let me in your world again  
And put the pieces back in place  
If we take it one day at a time  
Who knows what we may find  
Our love never went away  
And we can get stronger every day!

[Chorus]

Aren't we tired of savin' all the same old faces  
And pretending that we're better off alone  
And maybe deep inside we both know that our place is  
Here all along... here all along

People falling in and out of love without a warning  
They get a second chance, then why can't we?  
Let's take a second chance, and then we'll see
