

Chicane, I Believe In Love

If theres somebody,
who can show me the way from now,
If theres somebody,
A light in the darkness,
Come take my hand and lead me the way,
I just cant wait any longer now,
it feels so strong,
its tearing me apart,

'Cause I believe in love

(love, love, I believe in love)

If theres somebody,
who can show show me the way from now,
yeah if theres somebody,
a light in the darkness,
Come take my hand and lead me the way,
I just cant wait and longer now,
It feels so strong,
its tearing me apart

'Cause I believe in love

Love, Love, I believe in love

Cause I believe in love
