Chicane, Stoned In Love

If you could see me here this way Looking backwards from today Would you do it all again? If I could roll it back to you Just like lovers always do I'm stoned in love but not with you

Good luck, cause we're not feeling stoned in love It's how I'm feeling now I feel the love is made of stone We're not feeling stoned in love

Good luck, cause we're not feeling stoned in love It's how I'm feeling now I feel the love is made of stone We're not feeling stoned in love

If we could wash the past away Would we go our separate ways I'd do it all again, as if I cared

Is this the way it's meant to be Stoned in love but not with me You're stoned in love but not with me

Good luck, cause we're not feeling stoned in love It's how I'm feeling now I feel the love is made of stone We're not feeling stoned in love

Good luck, cause we're not feeling stoned in love It's how I'm feeling now I feel the love is made of stone We're not feeling stoned in love

Stoned in love

I'm stoned in love but not with you

Good luck, cause we're not feeling stoned in love It's how I'm feeling now I feel the love is made of stone We're not feeling stoned in love

Stoned in love, stoned in love Stoned in love, stoned in love Stoned in love, stoned in love Stoned in love but not with you

As if I care If I care
