

Chicks On Speed, Shooting From The Hip

No one noticed you had disappeared

Its been two days no connection

Pile of hardware making hits

If the quality is high

At the party theres a place for you

On the guest list theres a place for you

In a somebodys arms

In the real world, its at your front door

Wanting everything and moving places

Worn to make the mind crash

Snaping into Making sense

Being off schedule with the world

In the cosmopolitan we see jeff koons

Celebrating yummy things, celebrating,

And talking of hisof his suffering

Break through programfor senior executives guide to slow dance Tokyo

unhealthy rise and danger, INB BSE chief impact

officers, whos helping? fear of regional digital divide,

its mount fuji sitting above the clouds

searching for consensus

master bites the bullet

how clearly do you need?

your customers company economy going public

we have both

Chorus:

it wont work

it doesnt make sense

it cant be done

do it this way
no that way, stop!
it cant be done
do it this way!
do it this way!

it wont work
it doesnt make sense
it cant be done
do it this way
no that way, stop
imagine a different way
do it this way

tickets unused, toys of the mind
we think improvement, a better feeling
generated, accelerating
that was a strange movie you took me through

hes a finder of strange things
random, cardboard box
in the closet, left untouched
for a future functions
when the animal comes out
voice of terror
screaming at you
screaming at you
what you think is real

nation in the grip of phone fever
three, the big three
shooting from the hip
this is no way to pick a president

shooting from the hip

cover feature, divided world

shooting from the hip

star bright, survival of the fittest

shooting from the hip

open market economy, Microsoft 8

shooting from the hip

deal in human rights, lost connection

chorus
