

Chihiro Onitsuka, Now

Somewhere there is a place
waiting for a patient, craving to a violence
What can I do to feel it?
What can I try to, what can I give to
But we haven't got it all figured out just yet
And I'm distracted by hopeful, hopeful pains
It's not todayIt's not yesterdayIt's not another dayIt's now
Speed and ego Please come and wash me away
Then I could be doing how I wanted to It's now All is now
We will experience that someday
At a garden of Eden, with counting up neglects
So we will realize that each way
But you better stay here, and you better just stare
Escape tries to take our power and ray all the time
So we ought to stake every, every hopes on
It's not todayIt's not yesterdayIt's not another day It's now
A mind and result show how to open a gate
Nobody understands how to rise over so wonder
Do you really think you do your best?
Do you really believe that next chance come to
But it's not Because we're walking on a rope
So do right now
It's not todayIt's not yesterdayIt's not another day It's now
Speed and ego Please come and wash me away
Then I could be doing how I wanted to It's now All is now
It's not todayIt's not yesterdayIt's now
It's now
