

# Children Of Bodom, Black Widow

(Right!)

(Fire!) the fire is more right than my eyes  
Don't remain, go misplay, you're so, so wild  
(Traitor!) your vengeance night, yes, always for me  
Always now, once you know, widow

(Right!)

(Murder!) your fire murders all my problems  
Ah (oh yeah!)

[Chorus:]

Fire: here I see the fire in my heart  
Traitor: hate your face, obey or you're gonna die  
Murder: murderer in you call me to die  
Oh yeah: I'll come back to you when I'm dead

Your voice is getting closer (today: fuck every day!)

Sleep up in the night - the Lord doesn't matter in my fight  
Widow, tell me the reason

[Chorus:]

Fire: fire is into turning in my heart  
Traitor: hate your face, obey or you're gonna die  
Murder: praying on my knee, I saw her near, come here  
Oh yeah: I'll come back to you when I'm dead

I'm dead: this is all, widow
