

Chilliwack, "My Girl (Gone, Gone, Gone)"

Ever since left me, I sure feel all alone
A little misunderstanding I can't get her on the telephone
Hanging out down on main street, living in a different world
Standing around with the gang on the corner talking about my girl
My girl she was the world to me
She's gone away across the street
My girl is just a memory
She's been so long away
She didn't have to leave me, se didn't have to run
She didn't have to go without a word to anyone
I hope she's doing alright, I got no way to know
Unless she gets to hear this song, hear it on the radio
My girl she was the world to me
She's gone and that's a tragedy
My girl is just a memory
She's been so long away
I hope she gets the message
Got to get back, you know
Gonna track her down, I'll find that girl
Gonna tell her that I love her so
Put the word on the grapevine
Spread it all around the world
Sooner or later I know I'm gonna get her
Talking about my girl, my girl
My girl, my girl, my girl
My girl, my girl, my girl
My girl, my girl, my girl
My girl, my girl, my girl
