

# Chimaira, Jade

Face black another shadow of innocence tainted  
Gave back all the lights and glitter  
Wrong track again and again is stings  
Wish you all could feel like this  
12 is for the reason of regret  
9 is for the pain that I'm caused  
Will strife ever cease? Someday...  
Fuck this mind that is made to hate  
Complete the task of humility  
Restrained from who they want me to be  
That's what they want me to be  
That is not quite good enough for me  
Fuck you and your thoughts on me  
Fuck you and your thoughts of me  
Fuck you how can I not be me  
Fuck you I will never let you take me  
I will never be that good little one  
I can never see what is so good about life  
I can never change just who I am,  
just what it is I think I am doing  
My hands fell down now I know I failed  
You were not there to pick up the waste of this pathetic tale  
Maybe I should just end all this right here  
Would you like that?  
Maybe you could cope knowing that you all have succeeded  
I am staying here to betray all of you  
Never failing me again  
Cut a little...it bleeds slowly can you see it ooze?  
I'm going to save me  
My eyes turn the color jade  
I look at everyone around me  
I am so sick of this place  
Anyone and anything makes me sick  
I just want to end it all  
I return to my room walls white with black shades  
Oh how would red look?  
The reasons are not for your ears  
The feelings are not for your heart  
I circle in tears wishing, hoping, dreaming  
Can I find a way out besides this?  
I need it  
I want to be where you are  
I miss you
