

# Chimaira, Salvation

Endless nights filled with misery  
Sick of familiar patterns  
Bruise after cut  
Can't wash away my scars

This is a night of... salvation (salvation)  
One the night of salvation (salvation)

This life always pained me  
Tired of the same routine  
All lies I've told  
Can't hide the little things

This is a night of... salvation(salvation)  
One the night of salvation(salvation)  
Life has been left behind me  
I will not cower away (cower away)

[x2]  
Adrenaline stronger than ever  
Feel it all come together

On the night of... salvation (salvation)  
On the night of... salvation (salvation)  
Life has been left behind me  
I will not cower away (cower away)

(salvation)  
(salvation)  
(salvation)
