

China Crisis, Thank You

China Crisis
Warped By Success
Thank You

Da-rum-da-do-da-do, da-rum-da-do-da-do
I want to thank you, just for being there
I want to thank you, for showing that you care
And when it's times like this
Keep the promises you give
And so i thank you, i do

You do, i do, you shine right through
Love me, love you, you shine right through

I want to be around, to show you that i'm there
I know it sounds profound to tell you that i care
And when it's times like this
Keep the promises you give
And so i thank you, i do

You do, i do, you shine right through
Love me, love you, you shine right through

Thank you just for being there
I want to thank you for showing that you care
And when it's times like this
Keep the promises you give
And so i thank you, i do
