

China Crisis, The Understudy

China Crisis
What Price Paradise?
The Understudy
Do you wear a smile
Dress up all the time
Feel real satisfied
Always by my side

I do believe your mine
Want you for all time

Do you wear a crown
Reigning over me
Feel real confident
Always on my mind

I do believe your mine
Want you for all time

Baby, now i see it well
Maybe time and time will tell
For the understudy

Do you count the days
Knowing my indecision
Promises i have made
Fueled with deep suspicion

I do believe your mine
Want you for all time

Baby, now i see it well
Yes it's true that time will tell
For the understudy
