

China Crisis, The Way We Are Made

China Crisis

Warped By Success

The Way We Are Made

Nobody ever will take your place in my life

Nobody ever could be so wrong

And at the same time be so right

Not everybody will understand how it feels

To be together for all this time

Not everybody will understand

And the road is long

Will you walk with me

And we carry on

And the road is long

I never was no good at all without you

Too much of my time all alone

Too much of my time without you
