

# Chiodos, Lindsay Quit Lollygagging

Bite my tongue, right now the perfect time  
Do anything to make her happy  
Even if it means my being miserable  
As long as she's loving life

I will be able to sleep at night  
With a smile upon her face  
I will be able to sleep at night  
With a smile upon her face

The thought of her smile not being there  
My inner feelings would be shattered  
A piece of glass puncturing my heart  
I'm bleeding from the inside

I will be able to sleep at night  
With a smile upon her face  
I will be able to sleep at night  
With a smile upon her face

As long as she's perfectly fine  
I hope she's perfectly fine  
And some day she will be mine

I will be able to sleep at night  
With a smile upon her face

As long as she's perfectly fine  
I hope she's perfectly fine  
And some day she will be mine
