

Chiodos, Queen Of Diamonds

Look at all that rain
Let it keep on rain
What light is for lovers
High on their seats undercover
So get up and leave the room
So get up and leave the room
And lose what you love
So get up and leave the room
So get up and leave the room
And lose what you love
What light is for lovers
High on their seats undercover
I caught the queen of diamonds
I caught the queen of diamonds
I caught the queen staring back at me
I caught the queen of diamonds
I caught the queen of diamonds
I caught the queen staring back at me
