

# Chojnacki &, I AM OVER YOU

If you could only spare a thought  
For all the things that lay neglected  
I'm through with begging on my knees  
One day soon, I will leave

Where I will go I just don't know  
I won't be waiting at your door  
It hasn't been good for so long  
Every day I sing this song

What become of us  
Is in the past  
I'm going to find a new future  
Coz' I am over you  
Not split in two  
I'm going to find a new future

I cannot turn the other cheek  
This a misery will just last longer  
When I get home I fall asleep  
And I my dreams I feel much stronger

Where I will go I just don't know  
I won't be waiting at your door  
It hasn't been good for so long  
Every day I sing this song

What become of us  
Is in the past  
I'm going to find a new future  
Coz' I am over you  
Not split in two  
I'm going to find a new future

I will until the time is right and close the door  
I walk into a moonlight night, my life again  
mine to explore

What become of us  
Is in the past  
I'm going to find a new future  
Coz' I am over you  
Not split in two  
I'm going to find a new future
