

# Chris And Conrad, Rescue

I've walked through the valley  
Been tossed in the storm, yeah  
And all of the demons  
Were comin for more, yeah yeah  
And anywhere I went

I was alone

You came to my rescue  
So I can make it home

Chorus:

You got me fallin

More in love with you

You got me wrapped up

I can barely even move

Even the good days

Can fade into black

Yeah I can only change

It happens too fast, too fast, too fast

I never even got a chance

If I was alone, if i was alone

If there was no rescue

I could never even make it home

Chorus

Chorus

When no one could find me

When everyone else had already moved on

You came to reach out

You never gave up on me

Even when hope was gone

Chorus
