Chris Brown, Closer

Oh, oh-oh Oh, oh-oh Oh, oh-oh Oh

It's only us, that's who it's only been (Yeah), uh
Let me be your cure to all that loneliness (Yeah), uh
Peanut butter inside rolling in
Really shy but you the only that notices (Pause)
Pause, you look good right now
Ten missed calls in my phone right now (Yeah)
I make you feel above the rest
It's a part of the game
But if you runnin', pointin' to me, you be outta the way

(Oh) Just (Oh), just come closer, baby (Oh, oh) I'm sinking, can you save me?

Can you be my savior?
My angel in the sky
'Cause I see millions of girls
Couldn't find one that has your eyes (Oh)
Can you be my voice
That I hear before I sleep?
Pray to Lord my soul to keep
That you always end up, end up with me

You hate it when I pop my shit, you say I'm not myself (No)
You know I value your opinion, not nobody else (Ooh)
You know you real, babe, them other bitches on the shelf (Yeah)
You askin' 'bout my past, I don't kiss and tell
If it's not only us, I'ma die trying
Giddy up, Bentley truck, we can fuck inside it
I'm tryna get to know you better (Oh)
I'm tryna love you more than ever, woah

(Oh) Oh (Oh), just come, just come closer, baby (Oh, oh) I'm sinking, can you save me?

Can you be my savior?
My angel in the sky
'Cause I see millions of girls
Couldn't find one that has your eyes (That has your eyes)
Can you be my voice
That I hear before I sleep? (Sleep)
Pray to Lord my soul to keep (Oh, Lord)
That you always end up, end up with me
