

# Chris Brown, For Ur Love

I'll wait for you  
Till you come home  
Here out alone  
I stay alone for your love  
For your love, for your love  
For your love, for your love  
For your love, for your love  
With my pimp cup down  
Nothing lost, nothing found  
It's the things that you do  
That makes me love you  
Turn around and thump, thump  
That's what I want you to do  
Even when I want you  
I hope you want me too  
I'll wait for you  
Till you come home  
Here out alone  
I stay alone for your love  
For your love, for your love  
For your love, for your love  
For your love, for your love  
And know what I'ma do now  
I'ma keep you 'round  
I like your teeth when you smile  
And your booty is like wild  
So turn around and thump, thump  
Or I jump in your trunk  
I really, really want you  
I hope you want me too  
I'll wait for you  
Till you come home  
Here out alone  
I stay alone for your love  
For your love, for your love  
For your love, for your love  
For your love, for your love
