

# Chris Brown, I May Never Find

I enjoy you  
I never want to see you leave girl  
You made my life so complete and i don't want to move to fast no  
Cause your too special

[chorus:]  
I really love the way  
You make me feel inside you wonder why my spirt is so happy  
You touched my heart  
Every part  
Whenever you speak to me  
I love what we have going on  
I may never find another one like you  
For me

I have no worries  
Once i step into your presenses  
You have a way of helping me  
See that everythings ok  
What else can i say

[chorus]

We started out  
Saying (saying)  
That we would just be friends  
But special feelings  
Have areason  
What are we suppose to do now  
Here in the mean while

I really love the way  
You make me feel inside you wonder why my spirt is happy  
Cause you came in  
And changed the meaning  
Of a true friend  
And this is just the beginning

You touched my heart  
Every part  
Whenever you speak to me  
I love what we have going on  
I may never find another one like you for me

I may never find another one like you for me  
I may never find another one like you for me  
I may never find another one like you for me
