

# Chris Brown, Movie

(\*Prod. by Jevon Hill)

Use your imagination, I'll do, just close your eyes

Puedo ser tu corazon y talvez tu profesor

I can be your doctor, cause that'll make it better

[Hook:]

Me && you take one, cut cut

Me && you take two, cut cut

Me && you take three same scene && it's us in between the sheet oh ah

Me && you take four from the bedroom to the floor,

Baby you so good I feel like you deserve an award

Girl the way you put that thing, on me girl it's a dream

And I know all the things to do...

So baby we can make a film, watch it over && over again

And I can play the lead to you...

[Chorus:]

We'll make a movie,

You'll play the starring role and I'll direct you on where to go

We'll make a movie,

Up && down and roun' && roun' baby just you follow I'll show you what to do

We'll make a movie (movie, movie) [2X]

We'll make a movie, I'll let you do me...

[Bridge:]

Girl the best love scene in the movie, movie

Goes out to you, girl your the best really && truly, truly

By the things that you do., oh oh!

[Chorus:]

We'll make a movie,

You'll play the starring role and I'll direct you on where to go

We'll make a movie,

Up && down and roun' && roun' baby just you follow I'll show you what to do

We'll make a movie (movie, movie) [2x]

We'll make a movie, I'll let you do me...
