

# Chris Brown, To My Bed

close the door and take your cloths off where you are  
I turn you on cause I love to see you glowing  
I know it's good I can tell by the way you walk  
I pull your cloths cause I love to feel you coming down

cause the mattress is so far away  
and my clock is watching  
ain't no time to waste  
since my hands already down your waist  
you better show me, that you want it right away cause  
I'll freak you right, I will /2x  
I'll stick my tongue  
I'll speak that language  
use my foreign skills  
my hands all in your hair  
naked before we hit the stairs  
can't even make it here

no we ain't gon' it to make bed  
I know we ain't gon' make it to my bed  
know we ain't gon' make it to my bed  
tear it up when I get wasted  
now that I got you aked  
I know we ain't gon' make it to my bed

spend inside, lay it down, I'ma eat it up  
what's for dessert?  
already swerin' on the codein  
while you drive, girl, get high  
I'ma pass the blunt  
doing the most  
we on the floor  
I might as well go dwon

cause the mattress is too far away  
and my clock is watching  
ain;t no time to waste  
ince my hands already on your waist  
you wanna shoe me, that you want it right away  
I'll freak you right, I will /2x  
I'll stick my tongue  
I'll speak that language  
use my foreign skills  
my hands all in your hair  
naked before we hit the stairs

I know we ain't gon' make it to my bed
