[Verse 1: Chris]

Have you ever seen a 4 door machine
when them things swing open (girl picture that)
Have you ever traveled upon a yacht
Sail across the ocean (girl picture that)
Tell me have you ever seen the stars
Shoot across the nite sky from a G4 side
Can u picture it?
Matter fact picture you and me living it.

[Hook]

I know I'm just a youngin'
But girl I'm in a good groove, right zone
I just need a year or two.
Let me stack this paper, imam keep the lights on
Let me show u what a hit single can do
And we can act a fool with it
So much diamonds you wont know what to do with it
(Whats my name?)
The name Chris Brown from Virginia
Ask about me and they'll tell you I'm the truth with it

[Chorus]

C to the H to the R.I.S.
I know you like it mama just say yes
And if you didnt know now you know
I'm a pro and I can go on & on & on & on
C to the H to the R.I.S.

And if you didnt know now you know
