

# Chris Cagle, I Don't Wanna Live

I know you said when I left  
I'd regret every word, every breath,  
Every step, every minute without you  
Go do what you have to

I know I said you were wrong  
I'd move on, it was only a matter of time  
Until I'd make it without you  
This wasn't about you

I said I needed space,  
A change of place,  
To go out and build my life

[Chorus:]

But I don't wanna live without you anymore  
And what I wouldn't give to get us back to the way it was before  
I admit I was wrong all along  
Now you're gone with all that I've been livin' for  
And I don't wanna live without you any more.

And for a couple of nights I was fine  
I was high on the wine, and the lights  
And my new found freedom that I thought I needed  
But the cold lonely room that I headed home to felt like a tomb  
I just stared at the ceiling, what an empty feelin'  
And baby I apologize, tell me it's not too late

[Chorus:]

Cause I don't wanna live without you anymore  
And what I wouldn't give to get us back to the way it was before  
I admit I was wrong all along  
Now you're gone with all that I've been livin' for  
And I don't wanna live without you any more.

I don't wanna live without you anymore  
And what I wouldn't give to get us back to the way it was before  
I admit I was wrong all along  
Now you're gone with all that I've been livin' for  
And I don't wanna live without you any more.  
Oh I don't wanna live without you any more.
