

# Chris De Burgh, Kiss Me From A Distance

Kiss me from a distance,  
Hold me in your arms,  
Tell me that you love me,  
Whisper in the dark

The words I long to hear  
When you are lying in your bed  
And though you're far away  
You will be with me here instead.

When I hold you in my dreams tonight,  
when I hold you in my dreams tonight.

Kiss me from a distance,  
Listen to my voice,  
Soon I will be with you,  
Standing at your door.

The moon and my imagination  
Shimmer in your head,  
Your arms are reaching up for me,  
I slip into your bed.

When I hold you in my dreams tonight,  
when I hold you in my dreams tonight.

The moon and my imagination  
Shimmer in your head,  
Your lips are reaching up for me,  
I slip into your bed.

When I hold you in my dreams tonight,  
when I hold you in my dreams tonight.

When I hold you in my dreams tonight,  
when I hold you in my dreams tonight.

Kiss me from a distance,  
(in my dreams tonight),  
Kiss me from a distance,  
(in my dreams tonight),  
Kiss me from a distance,  
(in my dreams tonight).
